

In this class we will focus on design, history, and concept development. Some classes will be purely sketch and idea development while others will focus on creating a finished product and critique. Some ideas may be dedicated to students, but overall students will develop their own creative vision with guidance from the teacher. We will focus on developing ideas at different scales.

The creative process will be explored in full during this class. Students will be encouraged to think about abstract paintings as individual works as well as artworks in a series.

Abstract mixed media class:

Below are a set of materials required for the class. There will be some materials made available for students to sample. If you have any questions about the supply list please contact the teacher. We can work on making accommodations as needed. We will focus on a combination of painting and drawing in this class with various mediums.
